# Programming—Flow Control and Interactive Input

Do the following:

1.  Open MATLAB, choose MATLAB Help to open the help window, choose "MATLAB; Getting Started; Programming with MATLAB; Flow Control".  Read all five sections—if, switch and case, for, while, continue, break.

2. Open MATLAB, choose MATLAB Help to open the help window, choose "MATLAB; Functions – Alphabetical List".  Read about the four functions: input, keyboard, menu, and pause.
